Hawaiian**Electric Company.**

The cleanest, brightest safest and really, in the long run, the cheapest and best light for use in the family residence, is the incandescent electric light. Safe; nothing could be safer. A few days ago a prominent gentleman of Honolulu came rushing down to the office of the Electric Company and said: "Give me figures for wiring my house, and I want it done at once; no more lamps for me. Last night a lamp tipped over and it came so near setting fire to the house and burning my children and I take no more risks."

This is the sentiment of quite a number in the past few weeks, who have ordered their houses fitted with the perfect light. Just think it over and make up your mind that you want the best and safest light; send for the Hawaiian Electric Company and tell them what you want.

We have a complete stock of everything in this line and have just received a lot of the very latest designs in chandeliers.

RAPID TRANSIT A SURE GO

THE CITIZENS ARE VERY MUCH IN EARNEST.

A Provisional Directorate is Chosen—Stock List Opened—Company Will be Formed at Once.

The rapid transit promoters were in meeting at the Chamber of Commerce hall yesterday afternoon. A number of business men who had not attended the previous meetings were on hand, and took an active part in the proceedings.

The special committee chosen to draw up a prospectus reported through its chairman. A statement was submitted instead of a prospectus. It was deemed best by the committee to recommend the formation of the company, and application made to the Legislature for a franchise. It had been carefully estimated that for the construction and maintenance of the twenty miles of road, would require a company with a half million capitalization.

The report of the committee was accepted. A stock list was opened and nearly every member present subscribed for a share of the capital stock amounting to \$100 each. A provisional board of directors was chosen, including Fred J. Lowrey, Theo. F. Lansing, James A. Kennedy, C. G. Ballentyne, C. S. Desley, Joseph A. Gilman, John H. Soper, J. H. Fisher, George R. Carter, James F. Morgan.

The provisional directorate will now make reports from time to time at meetings to be composed of those who have taken stock. W. R. Castle suggested that all methods of application of power other than electrical current, be looked into. He was satisfied that compressed air was now in successful use and he had been assured by a responsible expert that a suitable line in Honolulu could be equipped with air power at a cost not to exceed \$140,000.

It was generally understood in the meeting that no assault will be made on the vested rights of the Tramway company, except as will be brought in the proper way before the courts of the land.

They are Reliable.

Saturday evening, January 29, a party of eight left the city for a trip around the Islands on bicycles. The list was made up of some of the leading wheels represented here, among them a '97 Overland Special, which is handled here by the HONOLULU BICYCLE COMPANY. The Overland was the Only Wheel in the Lot which made the round trip without trouble of any kind. OVERLANDS are the kind of wheels that take you Away from home and Bring You Back Again.

By the last Australia we received a few samples of the '98 OVERLANDS. They are as much superior to the '97 product as daylight is superior to darkness, and are without exception the most beautiful models, and the highest grade wheels ever shown here for anything near the price which we shall sell them—\$65. We defy all competition, even at a much higher figure.
